Neurological Research

A journal of progress in Neurosurgery and Neurosciences

Volume 10 Number 4 December 1988

SUBJECT INDEX

5-HIAA
  spasmodic torticollis, brain dialysis, HVA; 213
Albumin
  ischaemia, cerebral blood flow, caratoid clipping; 225
Alzheimer's disease
  choline administration, phosphatidylcholine, dietary supplements, central muscarinic receptors; 130
Amino acids
  epilepsy, neurotransmitters, GABA, glutamine; 112
Amyotrophic lateral sclerosis
  spinal cord, thyrotropin releasing hormone, human cerebral spinal fluid, pharmacokinetics; 236
Aneurysm surgery
  subarachnoid haemorrhage, aneurysm rupture; 217
Anticonvulsants
  lidocaine, phenytoin, convulsants, muscimol; 161
Apnoea
  pressure wave, ventricular dilation, hydrocephalus, sleep; 105
Autoradiography
  transient hindbrain ischaemia, protein synthesis; 25
Blood volume expansion
  cerebral ischaemia, computerized EEG analysis; 151
Brain dialysis
  spasmodic torticollis, HVA, 5-HIAA; 213
Brain oedema
  cerebral ischaemia, calcium antagonist, flunarizine, laser Doppler flowmeter; 145
  cerebral ischaemia, ornithine decarboxylase, polyamines; 175
  cerebral ischaemia, free radical reaction, energy metabolism, chemiluminescence; 194
Brain stem
  intracranial pressure, electrical stimulation, cerebrovascular circulation; 87
Calcium
  spinal cord injury, cerebrospinal fluid, free fatty acids; 66
Calcium antagonist
  cerebral ischaemia, flunarizine, laser Doppler flowmeter, brain oedema; 145
Caratoid artery disease
  cerebral circulation, Doppler ultrasound; 57
Caratoid clipping
  ischaemia, cerebral blood flow, albumin; 225
Catheter
  intracranial pressure monitor, epidural, nuclear magnetic resonance; 123
Central muscarinic receptors
  Alzheimer's disease, choline administration, phosphatidylcholine, dietary supplements; 130
Cerebellum
  thalamocortical responses, epilepsy, red nucleus, periaqueductal gray; 156
Cerebral acidosis
  cerebral ischaemia, lactic acidosis, hyperglycaemia, pH electrode; 97
Cerebral arteries
  ischaemia, infarction, somatosensory evoked potentials; 179
Cerebral artery
  subarachnoid haemorrhage, noradrenergic terminals, vasospasm; 49
Cerebral blood flow
  ischaemia, albumin, caratoid clipping; 225
  polyamines, difluoromethylornithine, somatosensory evoked potential, cerebral ischaemia; 141
  primates, EEG, depth electrodes, transient ischaemia attacks; 184
Cerebral circulation
  caratoid artery disease, Doppler ultrasound; 57
Cerebral cortex
  intracranial pressure, electrical stimulation, cerebrovascular circulation, hypothalamus; 93
Cerebral infarction
  cerebral ischaemia, endogenous opoid peptide, methionine-enkephalin; 120
  hemispheric perfusion pressure, MCA occlusion; 61
  penumbra, EEG analysis, ischaemia, regional cerebral blood flow; 246
  regional cerebral blood flow, middle cerebral artery, ischaemic flow threshold, interhemispheric diaschisis; 203
Cerebral ischaemia
  blood volume expansion, computerized EEG analysis; 151
  brain oedema, ornithine decarboxylase, polyamines; 175
  calcium antagonist, flunarizine, laser Doppler flowmeter, brain oedema; 145
  cerebral infarction, endogenous opoid peptide, methionine-enkephalin; 120
  chemiluminescence, free radical reaction, mannitol, vitamin E; 73
  free radical reaction, brain oedema, energy metabolism, chemiluminescence; 194
  lactic acidosis, cerebral acidosis, hyperglycaemia, pH electrode; 97
  neuronal plasma membrane, cholesterol content, freeze-fracture cytochemistry; 2
  polyamines, difluoromethylornithine, somatosensory evoked potential, cerebral blood flow; 141
Cerebral oxygen sufficiency
  near infrared spectrophotometry, cytochrome c oxidase; 7
Cerebral vasospasm
  subarachnoid haemorrhage, oxyhaemoglobulin, sympathetic nervous system, denervation supersensitivity; 169
Cerebrospinal fluid
  spinal cord injury, calcium, free fatty acids; 66
Cerebrovascular circulation
  intracranial pressure, electrical stimulation, brain stem; 87
  intracranial pressure, electrical stimulation, cerebral cortex, hypothalmus; 93
Chemiluminescence
  cerebral ischaemia, free radical reaction, brain oedema, energy metabolism; 194
  cerebral ischaemia, free radical reaction, mannitol, vitamin E; 73
Cholesterol content
  cerebral ischaemia, neuronal plasma membrane, freeze-fracture cytochemistry; 2
Choline administration
  Alzheimer's disease, phosphatidylcholine, dietary supplements, central muscarinic receptors; 130
Computerized EEG analysis
  cerebral ischaemia, blood volume expansion; 151
Contralateral homologous cortex
  somatosensory evoked potential, corpus callosum, functional elimination; 115
Convulsants
  lidocaine, phenytoin, anticonvulsants, muscimol; 161

Corpus callosum
somatosensory evoked potential, contralateral homologous cortex, functional elimination; 115
CT scans
fetus, intracranial structures, germinal matrix; 40
Cytochrome c oxidase
near infrared spectrophotometry, cerebral oxygen sufficiency; 7
Deferoxamine
ischaemia, global brain ischaemia, lidoflazine; 136
Denervation supersensitivity
subarachnoid haemorrhage, cerebral vasospasm, oxyhaemoglobulin, sympathetic nervous system; 169
Depth electrodes
primates, EEG, cerebral blood flow, transient ischaemia attacks; 184
Dietary supplements
Alzheimer's disease, choline administration, phosphatidylcholine, central muscarinic receptors; 130
Difluoromethylornithine
polyamines, somatosensory evoked potential, cerebral blood flow, cerebral ischaemia; 141
Dimethyl sulphoxide
spinal cord injury, methyl prednisolone, naloxone, somatosensorial evoked potentials; 232
Doppler ultrasound
cerebral circulation, caratoid artery disease; 57
Dorsal funiculus
spinal cord, fasciculus gracilis, dorsal spinocerebellar tract; 81
Dorsal spinocerebellar tract
spinal cord, dorsal funiculus, fasciculus gracilis; 81
EEG
primates, depth electrodes, cerebral blood flow, transient ischaemia attacks; 184
EEG analysis
cerebral infarction, penumbra, ischaemia, regional cerebral blood flow; 246
Electrical stimulation
intracranial pressure, brain stem, cerebrovascular circulation; 87
intracranial pressure, cerebrovascular circulation, cerebral cortex, hypothalmus; 93
Endogenous opoid peptide
cerebral infarction, cerebral ischaemia, methionine-enkephalin; 120
Energy metabolism
cerebral ischaemia, free radical reaction, brain oedema, chemiluminescence; 194
Epidural
intracranial pressure monitor, nuclear magnetic resonance, catheter; 123
Epilepsy
amino acids, neurotransmitters, GABA, glutamine; 112
thalamocortical responses, cerebellum, red nucleus, periaqueductal gray; 156
Fasciculus gracilis
spinal cord, dorsal funiculus, dorsal spinocerebellar tract; 81
Fetus
CT scans, intracranial structures, germinal matrix; 40
Flunarizine
cerebral ischaemia, calcium antagonist, laser Doppler flowmeter, brain oedema; 145
Free fatty acids
spinal cord injury, cerebrospinal fluid, calcium; 66
Free radical reaction
cerebral ischaemia, brain oedema, energy metabolism, chemiluminescence; 194
cerebral ischaemia, chemiluminescence, mannitol, vitamin E; 73
Freeze-fracture cytochemistry
cerebral ischaemia, neuronal plasma membrane, cholesterol content; 2
Functional elimination
somatosensory evoked potential, contralateral homologous cortex, corpus callosum; 115
GABA
epilepsy, amino acids, neurotransmitters, glutamine; 112
Germinal matrix
CT scans, fetus, intracranial structures; 40
Global brain ischaemia
ischaemia, lidoflazine, deferoxamine; 136
Glutamine
epilepsy, amino acids, neurotransmitters, GABA; 112
Haemorrhagic attack
moyamoya disease, surgery, revascularization; 32
Hemispheric perfusion pressure
cerebral infarction, MCA occlusion; 61
Human cerebral spinal fluid
spinal cord, thyrotrpin releasing hormone, pharmacokinetics, amyotrophic lateral sclerosis; 236
HVA
spasmodic torticollis, brain dialysis, 5-HIAA; 213
Hydrocephalus
pressure wave, apnoea, ventricular dilation, sleep; 105
Hyperglycaemia
cerebral ischaemia, lactic acidosis, cerebral acidosis, pH electrode; 97
Hypothalmus
intracranial pressure, electrical stimulation, cerebrovascular circulation, cerebral cortex; 93
Hypoxia
phenytoin, pharmacological testing; 18
spinal evoked potentials, *in vitro* spinal cord preparation, tissue anoxia; 200
In vitro spinal cord preparation
spinal evoked potentials, hypoxia, tissue anoxia; 200
Infarction
ischaemia, cerebral arteries, somatosensory evoked potentials; 179
Interhemispheric diaschisis
cerebral infarction, regional cerebral blood flow, middle cerebral artery, ischaemic flow threshold; 203
Intracranial aneurysms
subarachnoid haemorrhage, ventriculo-cisternal drainage, surgery; 69
Intracranial pressure
electrical stimulation, brain stem, cerebrovascular circulation, cerebral cortex, hypothalmus; 93
Intracranial pressure monitor
epidural, nuclear magnetic resonance, catheter; 123
Intracranial structures
CT scans, fetus, germinal matrix; 40
Ischaemia
cerebral arteries, infarction, somatosensory evoked potentials; 179
cerebral blood flow, ablumin, caratoid clipping; 225
cerebral infarction, penumbra, EEG analysis, regional cerebral blood flow; 246
global brain ischaemia, lidoflazine, deferoxamine; 136
Ischaemic flow threshold
cerebral infarction, regional cerebral blood flow, middle cerebral artery, interhemispheric diaschisis; 203
Lactic acidosis
cerebral ischaemia, cerebral acidosis, hyperglycaemia, pH electrode; 97
Laser Doppler flowmeter
cerebral ischaemia, calcium antagonist, flunarizine, brain oedema; 145
Lidocaine
phenytoin, convulsants, anticonvulsants, muscimol; 161
Lidoflazine
ischaemia, global brain ischaemia, deferoxamine; 136
Mannitol
cerebral ischaemia, chemiluminescence, free radical reaction, vitamin E; 73
MCA occlusion
cerebral infarction, hemispheric perfusion pressure; 61
Methionine–enkephalin
cerebral infarction, cerebral ischaemia, endogenous opoid peptide; 120
Methyl prednisolone
spinal cord injury, dimethyl sulphoxide, naloxone, somatosensorial evoked potentials; 232
Middle cerebral artery
cerebral infarction, regional cerebral blood flow, ischaemic flow threshold, interhemispheric diaschisis; 203
Moyamoya disease
surgery, revascularization, haemorrhagic attack; 32
Muscimol
lidocaine, phenytoin, convulsants, anticonvulsants; 161
Naloxone
spinal cord injury, methyl prednisolone, dimethyl sulphoxide, somatosensorial evoked potentials; 232
Near infrared spectrophotometry
cerebral oxygen sufficiency, cytochrome c oxidase; 7
Nerve motor system organization
third cranial nerve, sixth cranial nerve, reinnervation; 221
Neuronal plasma membrane
cerebral ischaemia, cholesterol content, freeze-fracture cytochemistry; 2
Neurotransmitters
epilepsy, amino acids, GABA, glutamine; 112
Noradrenergic terminals
subarachnoid haemorrhage, cerebral artery, vasospasm; 49
Nuclear magnetic resonance
intracranial pressure monitor, epidural, catheter; 123

Ornithine decarboxylase
brain oedema, cerebral ischaemia, polyamines; 175
Oxyhaemoglobin
subarachnoid haemorrhage, cerebral vasospasm, sympathetic nervous system, denervation supersensitivity; 169
Penumbra
cerebral infarction, EEG analysis, ischaemia, regional cerebral blood flow; 246
Periaqueductal gray
thalamocortical response, epilepsy, cerebellum, red nucleus; 156
pH electrode
cerebral ischaemia, lactic acidosis, cerebral acidosis, hyperglycaemia; 97
Pharmacokinetics
spinal cord, thyrotropin releasing hormone, human cerebral spinal fluid, amyotrophic lateral sclerosis; 236
Pharmacological testing
hypoxia, phenytoin; 18
Phenytoin
hypoxia, pharmacological testing; 18
lidocaine, convulsants, anticonvulsants, muscimol; 161
Phosphatidylcholine
Alzheimer's disease, choline administration, dietary supplements, central muscarinic receptors; 130
Polyamines
brain oedema, cerebral ischaemia, ornithine decarboxylase; 175
difluoromethylornithine, somatosensory evoked potential, cerebral blood flow, cerebral ischaemia; 141
Pressure wave
apnoea, ventricular dilation, hydrocephalus, sleep; 105
Primates
EEG, depth electrodes, cerebral blood flow, transient ischaemia attacks; 184
Protein synthesis
transient hindbrain ischaemia, autoradiography; 25
Red nucleus
thalamocortical responses, epilepsy, cerebellum, periaqueductal gray; 156
Regional cerebral blood flow
cerebral infarction, middle cerebral artery, ischaemic flow threshold, interhemispheric diaschisis; 203
cerebral infarction, penumbra, EEG analysis, ischaemia; 246
Reinnervation
third cranial nerve, sixth cranial nerve, nerve motor system organization; 221
Revascularization
moyamoya disease, surgery, haemorrhagic attack; 32
Sixth cranial nerve
third cranial nerve, reinnervation, nerve motor system organization; 221
Sleep
pressure wave, apnoea, ventricular dilation, hydrocephalus; 105
Somatosensorial evoked potentials
spinal cord injury, methyl prednisolone, dimethyl sulphoxide, naloxone; 232
Somatosensory evoked potential
contralateral homologous cortex, corpus callosum, functional elimination; 115
polyamines, difluoromethylornithine, cerebral blood flow, cerebral ischaemia; 141
Somatosensory evoked potentials
ischaemia, cerebral arteries, infarction; 179
Spasmodic torticollis
brain dialysis, HVA, 5-HIAA; 213
Spinal cord
dorsal funiculus, fasciculus gracilis, dorsal spinocerebellar tract; 81
thyrotropin releasing hormone, human cerebral spinal fluid, pharmacokinetics, amyotrophic lateral sclerosis; 236
Spinal cord injury
cerebrospinal fluid, calcium, free fatty acids; 66
methyl prednisolone, dimethyl sulphoxide, naloxone, somatosensorial evoked potentials; 232
Spinal evoked potentials
in vitro spinal cord preparation, hypoxia, tissue anoxia; 200
Subarachnoid haemorrhage
aneurysm surgery, aneurysm rupture; 217
Subarachnoid haemorrhage
cerebral vasospasm, oxyhaemoglobin, sympathetic nervous system, denervation supersensitivity; 169
cerebral artery, noradrenergic terminals, vasospasm; 49
intracranial aneurysms, ventriculo-cisternal drainage, surgery; 69
Surgery
intracranial aneurysms, subarachnoid haemorrhage, ventriculo-cisternal drainage; 69
moyamoya disease, revascularization, haemorrhagic attack; 32
Sympathetic nervous system
subarachnoid haemorrhage, cerebral vasospasm, oxyhaemoglobin, denervation supersensitivity; 169
Thalamocortical responses
epilepsy, cerebellum, red nucleus, periaqueductal gray; 156
Third cranial nerve
sixth cranial nerve, reinnervation, nerve motor system organization; 221
Thyrotropin releasing hormone
spinal cord, human cerebral spinal fluid, pharmacokinetics, amyotrophic lateral sclerosis; 236
Tissue anoxia
spinal evoked potentials, *in vitro* spinal cord preparation, hypoxia; 200
Transient hindbrain ischaemia
protein synthesis, autoradiography; 25
Transient ischaemia attacks
primates, EEG, depth electrodes, cerebral blood flow; 184
Vasospasm
subarachnoid haemorrhage, cerebral artery, noradrenergic terminals; 49
Ventricular dilation
pressure wave, apnoea, hydrocephalus, sleep; 105
Ventriculo-cisternal drainage
intracranial aneurysms, subarachnoid haemorrhage, surgery; 69
Vitamin E
cerebral ischaemia, chemiluminescence, free radical reaction, mannitol; 73

Calendar

Date	Event	Contact Address	Venue
1989			
February 15–17	Twenty-Second Annual Recent Advances in Neurology, President's Day Weekend	Extended Programs in Medical Education, University of California, School of Medicine, San Francisco, California 94143–0766, USA. Tel. (415) 476–4251	San Francisco, California, USA
June 1–2	Third Northern Lights Neuroscience Symposium, Virus and the Brain	Dr Gudmundar Georgsson, Institute for Experimental Pathology, University of Iceland, Keldur, PO Box 8540, 128 Reykjavik, Iceland. Tel. 354–1–82811	Reykjavik, Iceland
July 10–13	Neuropharmacology of Serotonin	Conference Department, The New York Academy of Sciences, 2 East 63rd Street, New York, NY 10021, USA. Tel. (212) 838–0230	Vista International Hotel, New York, USA
October 2–4	Neuropeptides and immunopeptides: Messengers in a Neuroimmune Axis	Conference Department, The New York Academy of Sciences, 2 East 63rd Street, New York, NY 10021, USA. Tel. (212) 838–0230	Sheraton Centre, New York City, USA
November 16–18	Hydination and Dysmyelination	Conference Department, The New York Academy of Sciences, 2 East 63rd Street, New York, NY 10021, USA. Tel. (212) 838–0230	Key Bridge, Marriott, Alexandria, VA, USA
December 6–8	Presynaptic Receptors — An Examination of Different Views	Conference Department, The New York Academy of Sciences, 2 East 63rd Street, New York, NY 10021, USA. Tel. (212) 838–0230	Sheraton Centre, New York City, USA
